**Jealous Darling-Johnny Rodriguez**
**Author:Tom T. Hall and Hillman Hall**

```
G               C        G                  C    G
Jealous darling that you are you think you know me
                   C       G             C     G
You don't trust me half as far as you can throw me
    C                           G
You know I cheated on someone to get to you
    A7                              D7
But running round is something only you can make me do
G                          C
Jealousy's another way of saying I love you
        G       D7                  G
Jealous darling I'm jealous of you too

C                               G
Jealous darling keep an eye on me
A7                                 D7
Birds in cages know you love them butterflies are free
   G                               C
If I get restless don't you let me very far from you
        G       D7                  G
Jealous darling I'm jealous of you too

                C         G             C     G
Jealous darling you don't know how much I treasure
                C     G               C   G
Every smile and every touch and every pleasure
    C                           G
Now when it comes to living life you know I'm weak
A7                              D7
Someone else just looks at me and I'm afraid to speak
G                              C
You hold on to me sweetheart and I'll hang on to you
        G       D7                  G
Jealous darling I'm jealous of you too
C       G       D7                  G
Jealous darling I'm jealous of you too
