Jukebox Charlie-Johnny Paycheck
Author:Aubrey Mayhew

```
G          C       G
Hello Joe  same as usual
                                    D7
I'm feeling low a little more so than usual
                 G                  C
I wanna play that jukebox hear that song
         G          D7           G
Tells me how I feel since Baby's gone

        C                      G
Jukebox Charlie yeah that's my name
                                                  D7
Cause I'm well known throughout the honky tonk crowd
          C                          G
Oh you're right Joe  it's a crying shame

But when I start drinking I start thinking
      D7                 G
And I wear my hurt real proud

                     C              G
One more drink Joe  and I gotta go home
                                                 D7
I don't know why I just sit and cry all night long
                 G                  C
But I'll be back again Joe  tomorrow night
                    G     D7                    G
And we'll hear about Baby  who didn't treat me right
