Julie-Johnny Paycheck
Author:Bob Morris

```
C                                F
The boys are wanting me to go out drinking
G7                    C
And leave my Julie at home
                             F
My Julie she don't mind my drinking
    G7                          C
But Julie don't like to stay alone

                          F          G7
So what's wrong staying home with Julie
C               F                  G7
Julie's always been so good to me
C                     F          G7
What's wrong staying home with Julie
F           G7                             C
Julie's has always stayed at home with me

                         F
Julie may be a bit old fashioned
G7                                     C
Cause she don't wear all those fancy clothes
                                         F
But at least they can't say bad things about her
       G7                                C
And I'm proud of my Julie wherever we may go

repeat #2

    F           G7                           C
Yes Julie's has always stayed at home with me
