**Living Alone-Hank Locklin**
**Author:Wayne P. Walker**

```
C
I may be wealthy with more than my share
         F          G7
I may be able to go anywhere
           F                    C
I may own a kingdom and sit on a throne
            G7                       C
Still I'll be lonely while I'm living alone

                  F
I can follow the bright lights
                   C
Keep a smile on my face
                  Em
I can travel this whole world
D7              G7
But not get any place

           C
I need you near me to stick by my side
              F                                G7
Please give me true love and don't shatter my pride
              F                                C
If you should leave me all the dreams I have known
                G7                       C
Will never come true while I'm living alone
```
