Maybe That's All It Takes-Don Williams
Author:Beth Nielsen Chapman

```
C          F             G7
I love you forever and a day
C               F                   G7
That's what the love songs like to say
F       C  F     C       G7    F
In love it seems life is but a dream
C               F                 G7
When we started out it felt that way

C             F            G7
But it didn't take us very long
C               F                G7
To find out the world is not a song
F    C    F    C        G7   F
Life gets blue and love does too
C            F                    G7
You learn to forgive and just go on

C            F       C
Maybe that's a-ll it takes
             D7               G7
Just lettin' go of the old mistakes
           F                      C
Holdin' on tight to the love we make
F            G7     C
Maybe that's all it takes

               F                 G7
We've done our share of slamming doors
C             F                   G7
And wondering what we're together for
F         C    F       C      G7 F
Yes we've been through a tear or two
C             F                 G7
And for every tear I'll love you more
```
