My Adobe Hacienda-George Strait

```
C                G7                      C
In my adobe hacienda  there's a touch of Mexico
                    G7                      C
Cactus lovelier than orchids blooming in the patio
                   F
Soft desert stars the strum of guitars
D7                        G7
Make every evening seem so sweet
  C             G7                            C
In my adobe hacienda  life and love are more complete

                  G7                        C
In my adobe hacienda  nested in the western hills
                   G7                             C
Evening breezes softly murmur harmony with whippoorwills
                          F
When setting sun  says the long day is done
D7                             G7
Sweet music starts to fill the air
  C             G7                  C
In my adobe hacienda   harmony is everywhere
```
