Okie Blondie-Hank Thompson
Author:Billy Gray, Dick Reynolds, Hank Thompson

```
G                              D7
In the dance hall out in the country
                             G
In Oklahoma there was much fun
                               D7
When I first met her I was a mooner
                              G
For that Sooner called Okie Blonde

Okie Blondie oh pretty baby
                          G7           C
Each day you live with the wind and sun
            D7
But when the night falls back to the dance halls
                                    G
The steel guitar calls you Okie Blonde

                                 D7
Each time I see her I rush to meet her
                                   G
Just like a shot from my old six gun
                             D7
And what a lover I did discover
                                    G
Beneath the moonlight with Okie Blonde

Repeat #2

                           D7
Okie Blondie rose of the river
                                   G
You're always dancing by the Cimarron
                                              D7
You're a great sensation of the Indian nation
                          G
My reservation is Okie Blondie

Repeat #2
```
