Old Glory-Jerry Lee Lewis with Toby Keith
Author:Jerry Lee Lewis, Paul Roberts, Shelby Darnell

```
G                                    C
There's a star spangled banner waving somewhere
         D7                       G
And it's waving for you and for me
                                              C
And that old star spangled banner waves old glory
         D7                             G
And it's waving for the brave and the free

                 B7                       E7
Well I trust in God because I know He cares for me
         A7                             D7
Upon the land and upon His rolling sea
              G                                C
But that old star spangled banner waves old glory
                 D7                               G
And God's gonna let it wave through all eternity

           B7                      E7
I trust in God because I know He cares for me
         A7                            D7
Upon the land and upon the rolling sea
               G                                 C
There's a old star spangled banner waves old glory
                 D7                               G
And God's gonna let it wave through all eternity
            D7                                 G
My God will let it wave through out eternity
```
