On The Other Hand-Randy Travis
Author: Don Schlitz and Paul Overstreet

```
C                                      F
On one hand I count the reasons I could stay with you
C                                    G7
And hold you close to me all night long
C                                F
So many lover's games I could play with you
           D7                                 G7
And on that hand I see no reason why it's wrong

           F                                C
But on the other hand there's a golden band
G7                                     C
To remind of someone who would not understand
F                                     C
On one hand I could stay and be your loving man
G7                                       C
But the reason I must go is on the other hand

                                    F
In your arms I feel the passion I thought had died
C                                G7
When I looked into your eyes I found myself
C                                F
When I first kissed your lips I felt so alive
         D7                                G7
I've got to hand it to you girl you're something else

           F                                C
But on the other hand there's a golden band
G7                                     C
To remind of someone who would not understand
F                                     C
On one hand I could stay and be your loving man
G7                                       C
But the reason I must go is on the other hand
