I'm gonna be ridin' on the wings of love out there somewhere up above
                                        D7
Movin' on and movin' up on the wings of love
        G
Gonna fly higher than the eagles fly gonna be sailin' on the silver sky
                    C     G          D7       G
Gonna have a twinkle in my eye on the wings of love

Sunny days are gonna roll our way stormy nights are gonna blow away
                                              D7
It's gonna be a brand new day on the wings of love
       G
Hangin' on with all of my might waitin' for you guidin' light
                           C        G            D7       G
My lovin' arms are gonna hold you tight on the wings of love

repeat #1

Till forever comes and goes till the tide no longer flows
                                                 D7
I'll be standin' by ready to go on the wings of love
          G
My love for you will never stop I'm by your side no matter what
                     C        G          D7       G
I'll finally reach the mountain top on the wings of love

So until the end of time till the stars fall from the sky
                   C         G          D7       G
