Once You've Had The Best-Johnny Paycheck

```
G                        C                  G
I'm so glad to have you back within these arms of mine
                                           D7
I can finally lay me down and get some rest
      G          C                  G
Never once did I think of finding someone new
                              C           D7      G
Cause there's nothing better once you've had the best

                             C             G
You're the very thing they sing about in love songs
                                             D7
And one mistake don't mean you've failed the test
     G              C                G
As I lay beside you softly sleeping this I know
                         C           D7      G
There's nothing better once you've had the best

C                                        G
Within your arms I've have the best and I'd like the world to know
C                                          A7              D7
I don't care what you've said or done I'll always love you so
                 G                    C           G
You've got more love in your little finger than all the rest
                             C           D7      G
And there's nothing better once you've had the best
```
