One Kiss Too Many-Eddy Arnold
Author:Steve Nelson, Eddy Arnold, Ed Nelson, Jr.

```
G                              C
I had one kiss too many and it went right to my heart
      D7                              G
What a fool I was to fall in love with you
D7   G                             C
I had one kiss too many should have known from the start
     D7                                 G
I was kissing someone who just couldn't be true

 C                       G      C      G
I knew the morning after I made a big mistake
    A7                              D7
That extra kiss was more than this old heart of mine to take
     G                     C
I had one kiss too many I remember it and I cry
          D7                                  G
Cause when I kissed you I kissed my heart goodbye

                               C
I had one kiss too many and it took me by surprise
     D7                            G
Now I know I'll never ever be the same
D7   G                            C
I had one kiss too many sure I'd never close my eyes
       D7                                G
Cause I know that you were only playing a game

 C                              G     C        G
I should have been contented to take a kiss and run
 A7                          D7
I had to hang around until I got that fatal one
     G                           C
I had one kiss too many it was just too much for me
      D7                                 G
Oh but one kiss less my heart might still be free
```
