One Of Everything You Got-Buck Owens
Author:Buck Owens and Bob Morris

```
C                  F         C
My little boy is a barrel of fun
                                    F        C
There's nothing in the world that he ain't done
   G7
He wrote ol' Santa Claus a letter today
                                   C
A-making sure that it comes his way

                        F     C
I mind my momma and my daddy too
                              F      C
I've done everything that I oughta do
     G7
Just so there won't be a mistake
                                        C
Well here's a list of everything I'll take

                         F       C
I want some of this and some of that
                         F      C
Some cowboy boots and a cowboy hat
  G7
A choo-choo train and a baseball bat
                        C
A puppy dog and a baby cat

                       F   C
Bring me a transistor radio
                          F      C
A Sting Ray bike that'll really go
  G7
A police car with a light on the top
                                   C
Bring me one of everything you got

               F       C
Santa Claus I promise you
                           F        C
I won't do things that I oughtn't to
     G7
Well I'm gonna quit acting like a kid
                                    C
I'm six years old and it's time I did

                      F       C
Last night after he went to bed
                                  F       C
Well I listened then and here's what he said
    G7
God bless momma and daddy and me
                                    C
And God bless Santa on Christmas Eve

Repeat #3,4
```
