Opportunity To Cry-Willie Nelson

```
C                              G7            C
Just watch the sunrise on the other side of town
                            G7                        C   C7
Once more I've waited and once more you've let me down
F                                        C  Am
This would be a perfect time for me to die
C                      G7              F  C
I'd like to take this opportunity to cry

                     G7                  C
You gave your word now I return it to you
                      G7             C    C7
With this suggestion as to what you can do
F                                       C     Am
Just exchange the words I love you for goodbye
C                   G7             F  C
While I take this opportunity to cry

    F
I'd like to see you but I'm afraid
              C
That I don't know wrong from right
          F
And if I saw you would I kiss you
   C                  G7
Or wanna kill you on sight

                  C          G7                  C
Well it's been a long night so I think I'll go home
                        G7                                C   C7
And feed my nightmares they've been waiting all night long
F                                       C     Am
They'll be the last ones to tell me goodbye
C                       G7                F  C
And they'll give me many opportunities to cry
                      G7                  F  C
They'll give me many opportunities to cry
```
