Pamela Brown-Bobby Bare
Author:Tom T. Hall

```
C               F            C
I'm  the guy who didn't marry pretty Pamela Brown
F        C               D7              G7
Educated  well intentioned good girl in our town
 C               F              C
I wonder where I'd be today if she had loved me too
F          G7             C
Probably be driving kids to school

   F               G7            C
And I guess I owe it all to Pamela Brown
F        C             D7             G7
All of my good times and all my roaming around
F           C                           E7           F
One of these days I might come rambling through your town
      C             G7            C
And I guess I owe it all to Pamela Brown

                      F                 C
I've sailed to foreign countries and I've walked upon their shores
     F
                C                                  G7
I've seen the lights of cities and I've been inside their doors
 C               F             C
I guess the guy she married is the best part of my luck
   F               G7             C
She dug him 'cause he drove a pickup truck

                F                 C
I don't have to tell you just how beautiful she was
F            C            D7             G7
Everything it takes to get a country boy in love
C               F         C
Lord I hope she's happy she sure deserves to be
F             G7              C
Especially for what she did for me
