Paul's Ministry-Kitty Wells
Author:William Travel
[3/4 time]

```
G                                          D7
The Lord said stand up Paul and dry up your tears
                                          G
You must preach My gospel for many long years
                                C
Go to Damascus the way that is straight
           G        D7                 G
You'll meet Ananias  and there you must wait

                                  D7
I counted on Jonah I counted on Cain
                                   G
I counted on Adam but he was the same
                                   C
I counted on Judas but he proved untrue
              G          D7              G
Oh go tell the world Paul I'm counting on you

                                                D7
Three days have gone by Lord and yet I don't see
                                              G
But here stands my brother a talking with me
                                            D7
He says brother Paul the Lord in the sky
            G        D7             G
Has sent me to heal you and open your eyes

                                                  D7
I'll send you to the Gentiles I'll send you to Rome
                                              G
But Paul you must suffer till I call you home
                                                      C
You'll sleep in the desert you'll be wrecked out at sea
                G         D7             G
But keep right on preaching My gospel for Me
```
