Perfect Mountain-Don Gibson
Author:Gene Thomas

```
C                    F         G7                   C
Gonna find a perfect mountain  gonna stay until I die
                         G7                                C  F
Drink of mother nature's fountain let my worries roll on by

C                       G7                                  C
Well the good times go easy yeah the bad times they go slow
               G7                                          C  F
Even in the in-between times I can't let my worries go

C                     G7                                 C
Always wanting to go somewhere but I never fail to find
                        G7                                        C      F
I grow tired of what I find there I long for things I left behind
```

```
C                       G7                                C
I can think of nothing better oh a sweetheart for a friend
                      G7                                   C   F
Before I find the two together I'm afraid my days shall end

C                        G7                                  C
Trouble always seems to find me when I find a place to hide
                    G7                                      C    F
As I close the door behind me it waits on the other side
```

Repeat #1

```
C              G7      C  F  C
Let my worries roll on by
```
