Pick Me Up On Your Way Down-Patsy Cline
Author:Burton Levy, Glenn Reeves, Mae Boren Axton

```
G7
Once my love was good enough
F                  C
True happiness we knew
     G7
Then fame and fortune came your way
    F                C
And made a change in you

G7
You'll find your ladder of success
F                C
Is not on solid ground
    G7
And when it starts to tumble
                        C
Pick me up on your way down

F                           C
Pick me up when dreams are shattered
     F                        C
When false friends cannot be found
        G7
For you know I'll still be waiting
                        C
Pick me up on your way down

G7
You've hit the top but it won't last
F                         C
There's just one way to go
    G7
The world you've chosen is not real
      F                     C
These things you'll come to know

G7
When folks say they don't know you
F                           C
And you've lost your final round
     G7
When you find that you are lonely
                        C
Pick me up on your way down
```

Repeat #3
