Please Mr. D.J.-Merle Haggard

```
C                        F
Hello Mr. D.J. won't you play a song for me
G7                                    F                 C
The girl I love just said goodbye and I'm blue as I can be
                  F
Oh please Mr. D.J. play that song I've heard you play
    G7                                              C
And send it out to someone who broke my heart today

G7                                C
You won't have to call her name she'll know it's meant for her
G7                                 C                          G7
Play me that song of sadness and I'll be grateful to you sir
   C                  F
Oh please Mr. D.J. play that song I've heard you play
    G7                                              C
And send it out to someone who broke my heart today
```

Repeat #2
