Put It Off Until Tomorrow-Jan Howard
Author:Dolly Parton and Bill Owens

```
G          D7      G              C
Put it off until tomorrow oh oh
               D7       G
You've hurt me enough today
            D7      G
You say our love is over
         D7         G
That you have found another

    G7               C
You say you're going away
          D7   G              C
But leave me tomorrow oh oh
               D7     G
You've hurt me enough today

G7                     C
You've hurt me enough today
       G          D7        C
I can't believe the words you say
  A7              D7
I must accept the fact
    A7              D7
You won't be coming back

G            D7       G
So stay just one more day
                D7   G
Loneliness isn't far away
C          D7      G              C
Put it off until tomorrow oh oh
               D7      G
You've hurt me enough today
```
