Raining In My Heart-Hank Williams Jr.
Author:Jerry West and James Moore

```
C             F
Raining In My Heart
                  C
Since we've been apart
              G7
I know I was wrong
                        C
Darling please come on home

           F
You got me crying
                C
Bout to lose my mind
                        G7
Don't let me crying in vain
                        C
Try my love just once again

    C                   F
Now honey  I need your love
                      C
And darling you know why
                                G7
So if you just come on back home
                                  C
There'll be no need for me to cry
```

Repeat #1
