ReadyBy:Webb Pierce
Author:Webb Pierce and Max Powell

```
C                            F
I remember the first time I dated you
      G7
                           C
I was ready and willing to give my heart to you
                        F
I was ready to go anywhere with you
   G7                               C
But I wasn't ready the day I lost you

                        F
I was ready to buy a ring for you
      G7
                           C
I was ready and willing to spend my life with you
                         F
I was ready to go all the way with you
   G7                               C
But I wasn't ready the day I lost you

F                                    C
Someone came along that you loved better

                                                          G7
Just when I thought I had your love forever
     C                                F
I was ready from the first time I dated you
   G7                                 C
But I wasn't ready the day I lost you
   G7                                 C
But I wasn't ready the day I lost you
```
