Red Wine And Blue-Johnny Rodriguez

```
C                  G7           C
Three tears for the red wine and blue
                                                  C7
One more drink from this bottle will carry me through
    F                        C
To a time she was mine so it seemed

Yesterday is all that's left to look forward to
        D7                      G7
Peace of mind is a wine flavored dream

C                    F
Red is the color of her flaming hair
       C                                  G7
And the wine that makes her memory come true
C                           F
Blue were the skies in the world that we knew
     C            G7           C
Three tears for the red wind and blue

                                          C7
The fruit of the vine takes me back in time
      F                             C
To the arms that were heaven doors for me

Let me feel once again the warmth of her skin
       D7                          G7
While a memory getting loved me to sleep

C                       F
And red is the color of her soft warm lips
    C                                 G7
That whisper through the wine I love you
C                      F
Blue are the eyes who tell I'm bound to
     C            G7           C
Three tears for the red wind and blue
```
