**Repenting-Kitty Wells**
**Author: Gary Walker**

```
G                    C
Repenting  yes I'm repenting
                    G
Those few careless hours
                       C
That never should have been
     D7                          G
I'm begging you to let me make amends
                     C
Repenting yes I'm repenting
   D7                         G
I promise never do you wrong again

C                             G
On my knees I'm asking your forgiveness
                                                D7
Please heed a humble heart laid at your feet
C                                        G
Too late I know a love like yours is different
A7                                  D7
It's all I need to make my life complete
G                     C
Repenting  yes I'm repenting
      D7                              G
I'll never make the same mistakes again
```
