I came in like a restless wind on a wagon train

But I'm gonna go like a July snow

Back to where I came from gonna leave this humdrum
D7 G
It's too slow and tame

None of your business where I've been

Don't ask me what I've done

Run your ranch and punch your cows

And stay behind my gun man Colorado's right hand
D7 G
Will put you on the run

I've got a gal in Denver town that's crying over me

But I said goodbye and I let her cry

I miss her company but I'll get out of this rut
D7 G
Rio Bravo's killing me

They gotta man locked in a cell

That's a freer man than I

He's gonna laugh right in their face

When they lead him out to die and

He's gonna leave these badlands
D7 G
And ride off in the sky

You're gonna see old Colorado headed for the door

You better believe I'm gonna leave like the 904 train

Gonna breathe some air again
D7 G
That ain't been breathed before
