I've been walking these streets so long singing the same old song
                                                 G7
I know every crack in the dirty sidewalks of Broadway
      F
Where hustle's the name of the game
                                                      C
And nice guys get washed away like the snow and the rain

                G7
There's been a load of compromising
       F               C
On the road to my horizon
    F                       D7                    Dm
But I'm gonna be where the lights are shining on me

                  C      F  C
Like a rhinestone cowboy
                                              Dm
Riding out on a horse in a star spangled rodeo
       G7         C      F  C
Like a rhinestone cowboy
                                                    Dm
Getting cards and letters from people I don't even know
                           F     G7
And offers coming over the phone

  C
I really don't mind the rain and smiles can hide all the pain
                                                     G7
You're down while taking the train that's taking the long way
      F
And I dream of things I'll do
                                                    C
With a subway token and a dollar tucked inside my shoe

Repeat #2,3
