Stoned Again-Norma Jean
Author:Boudleaux Bryant and Felice Bryant

```
G7                 C                  F
Momma he came home stoned again last night
          G7                           C
And it's breaking my heart what can I do
    G7                  C              F
And even when he's home all we do is fight
           G7                                  C
So can the kids and I come home and stay with you

  G7                   C            F
I know that he will be stoned again tonight
          G7                          C
Cause he called to say that he'd be late again
  G7                    C             F
Tonight he'll be so high he'll be out of sight
      G7                              C
Momma he'll be mean and stoned again tonight

G7
Stoned again it's the shame the shape he's in
                              C
Momma momma that man is stoned again

G7                 C               F
Momma he has been this way for so long
           G7                      C
What he's doing to our children is a sin
  G7                            C                 F
I know they're much too young to understand what's wrong
          G7                                  C
When they hear me say that man is stoned again

G7
Stoned again it's the shame the shape he's in
                              C
Momma momma that man is stoned again
```
