Sunbonnet Sue-Bob Wills
Author:Milton Brown

```
G                          A7
Sunbonnet Sue when I said goodbye to you
             D7                        G
You promised you'd be true Sunbonnet Sue
                           A7
When skies are blue I wanna hear you say I do
           D7                        G
For I'm in love with you Sunbonnet Sue

                                  A7
I met her in the springtime the sun was shining down
D7                                G
Beneath the red sunbonnet shown two big eyes of brown
    C
But things were dimmed with teardrops when she gave me a kiss
    G                                 D7                G
And said when are you coming back to your Mississippi Miss

repeat #1

                                      A7
Don't care about Miss Sadie Green or Virginia from the mountains blue
D7                                    G
Not Jenny Lee from Tennessee or not ol' true blue Lou
      C
Don't care about Ramona and I don't miss my Swiss
        G                                 D7             G
But the girl I'm telling you about is a Mississippi Miss
