Sweet Misery-Jimmy Dean
Author:Jan Cruthfield and Wayne P. Walker

```
C                              Am
When I'm lonely I think about someone
F              G7          C
Someone I call Sweet Misery
G7     C               Am
In her arms I was in heaven
    F             G7        C
But heaven wasn't meant for me

                               Am
I still love her oh but I've lost her
F                      G7           C
When she walked out the hurt walked in
G7      C                          Am
Now our love's gone just like an old song
     F                     G7   C
That no one ever wants to hear again

                               Am
I count heartaches that a big fool makes
F                    G7         C
And I think about my Sweet Misery
G7    C               Am
To my sorrow each new tomorrow
F                                 G7                C
Proves there ain't never been a bigger fool than me

                         Am
Cause in her arms I was in heaven
F                  G7        C
But heaven wasn't meant for me
G7      C                             Am
Oh when I'm lonely I think about someone
F               G7         C
Someone I call Sweet Misery

F               G7         C
Someone I call sweet misery
F               G7         C
Someone I call sweet misery
```
