Sweet Temptation-Jean Shepard
Author:Merle Travis and Cliffie Stone

```
C                       F
Sweet temptation that's what you are to me
C                              G7
That's all you'll always be it seems
C                   F
Sweet temptation you smile and pass me by
    C         G7        C
But still you occupy my dreams

    F                               C
Now maybe I've got lots of hidden charms
      F                                    C
You'd find if you'd just hold me in your arms
G7              C                    F
But you're just sweet temptation a diamond in the rough
    C       G7              C
You make it awful tough for me

                     F
Sweet temptation the most delicious peach
C                           G7
Is always out of reach they say
C                  F
Sweet temptation you're just a little flirt
    C                  G7        C
You know you might get hurt that way

    F                               C
Now someday you may get a big surprise
   F                                C
By someone who will make you realize
G7                C                    F
That you're just sweet temptation a diamond in the rough
    C       G7              C
You make it awful tough for me
```
