Swing Wide Your Gate Of Love-Hank Thompson

```
G                              D7
Swing wide your gate of love open up your heart
                                        G
I knew when I first met you that you'd be my sweetheart
C                              G
Swing wide your gate of love and please don't let me fall
D7                             G
I know you're gonna love me after all

C                              G
Swing wide the gate and leave it open
                                          D7
Towards the center of your heart I'll be bound
  C                              G
And I'll mend the heart that has been broken
A7                              D7
I'm not the kind of guy to let you down

G                              D7
So swing wide your gate of love open it for me
                               G
For you are the one I want my darling can't you see
C                              G
Make up your mind to like me and to be my turtledove
 D7                             G
I love you so swing wide your gate of love
```

Repeat #2 and #3
