Taste Of The Truth-Gene Watson
Author:Rebecca Lynn Howard

```
G
You gave me what I was hungry for
    C                       G
And got on with your life when I walked out the door
                 G7             C
I'd eat my words to have you back if I thought I could
          G                D7          C          G
Cause the truth don't satisfy me like I thought it would

   C                                G
In fact it leaves me hollow with a bad taste in my mouth
     C                     A7                   D7
It's hard for me to swallow tears won't wash it down
G                  G7                  C
Knowing you don't want me back it's all that I can do
              G          D7                G
To keep from choking on the taste of the truth

So afraid that life was gonna pass me by
C                           G
Needing you again had never crossed my mind
                    G7                 C
The freedom that I thought I couldn't live without
      G             D7      C     G
Has a lonely flavor I never knew about

Repeat #2

                G7                 C
Knowing I can't have you back it's all that I can do
              G          D7                C    G
To keep from choking on the taste of the tr-uth
```
