Ten Thousand Teardrops-Slim Whitman
Author: Alex Zanetis
[3/4 time]

```
C                                  G7
Ten thousand teardrops one broken heart
                                    C
This is the story since we've been apart
                       C7                F
Nights I lay restless walk through the rain
             C              G7          C
Ten thousand prayers I have offered in vain

                  G7                C
Walking walking walk through the rain
         F                 G7
Walking walking all in vain
C                   C7                F
This is the story since we've been apart
             C              G7          C
Ten thousand teardrops and one broken heart

                              G7
I was a poor boy she wanted wealth
                                       C
Rubies and diamonds she loved nothing else
                       C7         F
I started gambling to buy her a ring
           C             G7         C
Won fifty dollars then lost everything
```
