```
C                       F             C
Does she seem a little cold when you love her
                    F                 C
Does she turn away when you hold her tight
                         F         C
Just search your soul and you will discover
                   F           C
How you hurt her night after night

                   F              Gm            F
And when was the first time she begged you to love her
                                          C
But you turned away and# acted like a fool
                   F              C
And when was the first time she laid there and cried
                      F                       C
Well that's when she started to stop loving you

                          F          C
Do you wonder why she's turning to another
                            F                C
And if you love her you'd better tell her so
                               F           C
Cause she's finding out that anyone will love her
                                    F               C
And it won't be long till you'll have to let her go
