The Dream-Merle Haggard

```
C                                   F               C
Last night I dreamed that you and I were in an awful storm
                                   G7
With no place to go or shelter anywhere
      C                            F             C
And it took a while to realize the reason for the dream
                   G7              C
Now the meaning of it all is coming clear

                                              F
The storm was all the trouble we've been having
  C                                G7
No shelter was the answer we can't find
       C                                    F                 C
And the screaming of the raging wind that chilled me to the bone
                   G7           C
Must have been the weary on my mind

                                                F
And when today you called to tell me it was over
      C                                G7
Lord I knelt when the phone began to ring
       C                                 F             C
Yeah it took a while to understand the reason of it all
                   G7             C
But now I know the meaning of the dream

                                              F
The storm was all the trouble we've been having
  C                                G7
No shelter was the answer we can't find
       C                                    F                 C
And the screaming of the raging wind that chilled me to the bone
                   G7           C
Must have been the weary on my mind
```
