The Hinges On The Door-Connie Smith
Author:Baker Knight

```
C                                      F            C
Well I feel just like an E chord on an old flat top guitar
                                      G7
I've been used till I can't stand it anymore
          C                             F
You've been in and out of here so much to find you someone new
          C              G7             C
That you're wearing out the hinges on the door

                                            F               C
When I met you I'd have turned around and walked the other way
                                           G7
If I'd known how many heartaches were in store
         C                               F
Seems like all I do is hang around and watch you come and go
           C              G7             C
While you're wearing out the hinges on the door

      F                                 C
Well I don't know why I take it but I do
    D7                                    G7
Well I guess its cause I'm so in love with you
    C                                 F            C
Each time that you find someone new you turn and walk away
                                                  G7
Then just like the tide you slip right back to shore
     C                               F
Oh my darling if you love me stick around and let me know
        C               G7             C
And stop wearing out the hinges on the door
```

Repeat #3
