Wait For The Light To Shine-Hank Williams
Author: Fred Rose

```
G
When the road is rocky
          C          G
And you're carrying a load
                   D7
Wait for the light to shine
G
If you find your friendless
        C             G
On that weary lonesome road
            D7       G
Wait for the light to shine

Wait for the light to shine
                   D7
Wait for the light to shine
G
Pull yourself together
         C              G
And keep looking for the sign
            D7       G
Wait for the light to shine

Don't forget your brother
           C            G
As you travel through the land
                   D7
Wait for the light to shine
G
He may be in trouble
        C             G
And may need a helping hand
            D7       G
Wait for the light to shine

Wait for the light to shine
                   D7
Wait for the light to shine
G
Never give up hope
            C                 G
Or cast your pearls before the swine
            D7       G
Wait for the light to shine

If you're life is empty
             C            G
And you're on your last go round
                   D7
Wait for the light to shine
G
If you hear the chime bells
              C        G
On the highway you have found
            D7       G
Wait for the light to shine

Wait for the light to shine
                   D7
Wait for the light to shine
G
When your friends forsake you
                C     G
And you haven't got a dime
            D7       G
Wait for the light to shine

Don't let trouble fool you

```
                C            G
And your sins will all be gone
                         D7
Wait for the light to shine
G
Don't forget it's darkest
                  C         G
Just before the break of dawn
              D7        G
Wait for the light to shine

Wait for the light to shine
                         D7
Wait for the light to shine
G
Keep these words before you
                  C       G
As you walk that narrow line
              D7        G
Wait for the light to shine
```
