Walking Piece of Heaven
by Marty Robbins

```
G                     C            G
What's that round your head is it a halo
                                      C
And what's that on your shoulders is it wings
                               G
You must be a walking piece of heaven
  D7                                 G
Or is it love that makes me see these things

                C                   G
Around you is a light that keeps on glowing
                                C
When you speak do I hear angels sing
                               G
You must be a walking piece of heaven
 D7                                  G
Or is it love that makes me see these things

C                                   G
When we met you gave me strength to face the world
C                                     G     D7
I believe you're special you're no ordinary girl
G          C            G
Am I seeing light or am I dreaming
                             C
Do I hear the rush of angel wings
                               G
You must be a walking piece of heaven
  D7                                 G
Or is it love that makes me see these things
  D7                                 G
Or is it love that makes me see these things
```
