We're Talking It Over-Faron Young
Author:Merle Kilgore and Faron Young

```
F                          C      G7                    C
Now that we've talked it over I know it's still goodbye

                                                  G7
As I look across the table at my old used to be
                                                 C         F        C
I think of things we did together and how much she means to me
                                      C7                   F
I wonder why I did the things that caused her love to die
                           C      G7                    C
Now that we've talked it over I know it's still goodbye

      F                                    C
Yes I know it's still goodbye and I'm all mixed up inside
       F                                     C                        G7
For it seems that she still loves me but her heart's not on my side
     C                                 C7              F
I've said all that I can say I've done my best to try
                           C      G7                    C
Now that we've talked it over I know it's still goodbye
```

Repeat #2 If I...
