You'd Make An Angel Want To Cheat-The Kendalls
Author:Bob Morrison, Bill Zerface, Jim Zerface

```
C                        F
Do do do do do do do do do
      C        G7       C
Do do do do do do do do do

F                                C
I never lost a fight with sweet temptation
F                                  C
That was before I laid my eyes on you
  F                                        C
I should have known that when I felt this shiver in my soul
                          G7             C
That you'd be too good at doing what you do

                                 F       C
And honey you'd make an angel want to cheat
                          G7
I can't keep you off my mind
C                  F       C
You make an angel want to cheat
                     G7          C
Lord help this saint to walk the line

                          F
Do do do do do do do do do
      C        G7       C
Do do do do do do do do do

F                               C
I feel a fire every time you touch me
F                                 C
See the devil laughing in your eyes
    F                              C
I'm trying hard to hold on but I just can't help myself
                     G7          C
I guess it took to long to realize
```

Repeat #2 x2
