You're Not By Yourself-Vern Gosdin
Author:Murray F. Cannon, Garland Perry Cochran, Vern Gosdin

```
C              G7        C
You're leaving without a reason
                 G7            C
At least a reason you just won't say
          F                  C
You won't tell me where you're going
D7                   G7
Or if you're going to stay

    C              G7                 C
And if you thought your leaving would kill me
                     G7    C
Honey would you still go anyway
    C7     F                          C
And if you thought your staying would save me
F           C     G7    C
Ooohhhh I'm ready to be saved

    F            C       G7           C
You say your not leaving for somebody else
  F          C                G7
I guess I believe that it's true
       F             C             G7            C
And if you find your future is the past that you left
       F           C     G7                 C
And if you're all alone you're not by yourself

    F            C       G7           C
You say your not leaving for somebody else
  F          C                G7
I guess I believe that it's true
       F             C             G7            C
And if you find your future is the past that you left
       F           C     G7                 Am
And if you're all alone you're not by yourself

   F          C     G7                F    C
If you're all alone you're not by yoursel--f
