**You're the reason I'm living-Wanda Jackson**
**Author:Bobby Darin**

```
C                     F
You're the reason I'm living
                        C
You're the breath that I take
                      G7
You're the stars in my heaven
                      C
You're the sun when I wake

                      F
You're the reason I'm living
                  C
All you carry me through
                    G7
All of life's little burdens
                    C
I'd be lost without you

            G7
A long long time ago
           C
When I was down
                  D7
You've picked me up and showed me
                       G7
True love still could be found

C                     F
You're the reason I do things
                       C
You're the thing that I do
                     G7
You're the reason I'm living
                     C
I'd be lost without you
```
