```
C                            F
When this old world gets me down
             G7           C
And life's a chain I drag around
                            F
When I can't find a ray of hope
           G7                 C
To help me soothe my worried soul

                  F
Only you and you alone
             G7                  C
Can turn the darkest night into dawn
                            F
The only reason for hanging on
   G7           C
Is you and you alone

                     F
Holding you close to me
         G7                  C
Gives me all the strength I need
                            F
Then I wake up it's just a dream
           G7           C
All that's left are memories

Repeat #2

                            F
The only reason for hanging on
   G7           C
Is you and you alone
