You Are My Treasure-Jack Greene
Author:Cindy Walker

```
C                                  G7
You are my treasure and my darling I possess
                   Am                      G7
The world's greater treasure the treasure of happiness
    F                              E7                    Am
Your smiles are my pearls and your ruby lips are beyond compare
                D7                                          G7
Your eyes are my diamonds and my gold is the gold in your hair

             C                    G7
Earth has its treasure of fabulous wealth untold
          Am                      G7
And who can measure the treasure the oceans hold
   F            E7                        Am
But whether it be underneath the sea or the sky above
G7         C                G7              C
There is no treasure like the treasure of your love
```

recitation:
There was a time when I thought I could find
Happiness in silver and gold
And I longed for fame and worldly acclaim
And I've hungered for these things filled my very soul

But then you came along and now I know I was wrong
For in your eyes I can see
The greatest treasure in all the world
The treasure of your love for me
