You Can Check On Me-Stonewall Jackson
Author: Gene Crysler

```
C                                                G7
My show signs on the air at six and I get off at nine
                                                        C
But I sit there each evening with more than records on my mind
                                                          F
You know that there's three hours when you're sure that you're free
    G7                                          C
You only need your radio and you can check on me

        G7                    C
You can check on me fourteen thirty on your dial
   D7                                G7
No matter where you park with him I'm there to make you smile
    C                                             F
You smile because you realize these records I might be
    G7                                           C
You can check on me and know how long it's safe to cheat

                                                      G7
I called your name and played our song so often on the air
                                                    C
I play each request for you and someone else to hear
                                                              F
Out there somewhere you'll hear these words and know I've seen the light
     G7                                            C
I'll be at home when you come in I taped the show tonight
```
