You Can Share My Blanket-J.D. Crowe
Author:Steven F. Brines and James B. Smoak

```
C                                F
When you say you love me I don't know what you mean
       D7           G7
But it seems like I should
        C                             F                G7
So if I say I'm bruised and torn and other loves have warned me
F                 G7              C
You won't mind if this one is for good

        G7                        C             Am
I don't know if I can take it if we can really make it
     G7                            C
I've never known a love without an end
          G7                          C                Am
But if you really think we can then you can share my blanket
F         G7                C
And we'll see what happens then

                                                    F
When your coat falls from your shoulders in a heap upon the floor
        D7              G7
And the door behind is closed
        C                               F             G7
I don't know if I can stand it it's an awful lot to handle
F                G7                C
Taking scraps of all the things I know
```

Repeat #2

```
                                 F
When you say you love me I don't know what to say
    D7            G7
I'm afraid to go along
 C                          F            G7
Afraid that you might hurt me unable to be certain
F                  G7                  C
Afraid that I might turn and you'll be gone

        G7                        C             Am
I don't know if I can take it if we can really make it
     G7                            C
I'll never know a love without an end
          G7                          C                Am
But if you really think we can then you can share my blanket
F         G7                C
And we'll see what happens then
```
