You Dun Stomped On My Heart-John Denver
Author:Mason D. Williams

```
G
I told you that I love you
C
You said that is so good
  D7
I called you my darlin'
                   G
I thought I always would

But now you've gone and left me
  C
I don't know what to do
D7
So my little darlin'
                         G
I write these words to you

        C
You dun stomped on my heart
        G
And you mashed that sucker flat
A7             D7
You just sorta stomped on my aorta
G
You started going out with guys
C
I felt us drift apart
D7
And every step you took
                    G
Was a stomp upon my heart

Spoken:

I only hope that someday
C
You get them low down blues
D7
In some smokey honky tonk
                       G
You looked down at your shoes

You'll think about that tender heart
C
That you crushed beneath them soles
D7
With your clod bustin' stompers
                              G
You left my heart so full of holes

Repeat #3

D7
Every step you took
                    C  G
Was a stomp upon my heart
```
