```
C
Now honey you just can't be true
       F
And it seems there's nothing I can do
G7                                  C
My heart tells me that you're a roving kind

Well your heart starts beating more and more
    F
And every good looking guy you just adore
G7                                      C
Well I love you dear but you just can't be true

    F
You wanna play the field and lead a happy life
C
Without a thought of worry or a care inside
     F
Then settle this thing and say we're through
      C              G7            C
Cause honey baby you just can't be true
```
