You Know I Love You-Kenny Rogers
Author:Mike Settle

```
G                              D7
When the morning sun  streaks across my room
       C                                  G
And I'm waking up from another dream of you
                          D7
Yes I'm on the road once again it seems
       C                                  G
All I've left behind is a chain of broken dreams

               D7
But you know I love you
     C            G       D7
Yes I love you oh I love you
G                                 D7
How I wish that love was all we need to live
      C                                            G
What a life we'd have cause I've got so much to give
                             D7
And it seems so wrong deep inside my heart
       C                                   G
That the dollar sign should be keeping us apart

Chorus
               D7
But you know I love you
     C            G       D7
Yes I love you oh I love you
      C                                 G
And if only I could find my way back to the time
       G7                                C
When the problems of this life had not yet crossed our minds
       F                                          Bb
All the answers could be found in children's nursery rhymes
       C                 F
I'd come running back to you
       D7                G
I'd come running back to you

                                 D7
But you know we can't live on dreams alone
     C                                    G
And to pay the rent I must leave you all alone
                                 D7
You know I made my choice many years ago
       C                                    G
Now this traveling life is the only one I know

Repeat chorus
```
