You Never Will Be True-and
Author: Ray Price

C
I've waited up to tell you dear
G7
This time you've gone too far

I've spent too many sleepless nights
C
A Wondering where you are

You always make some poor excuse
F
For things you shouldn't do
G7
You'll never change you're still the same
C
You never will be true

F
I've Tried so hard to change your ways
C
Now I know you can't
F
If loving you would help at all
C G7
By now you'd be a saint

C
So it will hurt to say goodbye
F
It's what I have to do
G7
You'll never change you're still the same
C
You never will be true

I've overlooked so many things
G7
That you've done in the past

And believed that if I tried
C
You'd change your ways at last

But leopards just can't change their spots
F
And neither girl can you
G7
You'll never change you're still the same
C
You never will be true

Repeat #3
